

# DevStint - Watermarking Software

## MVP Features:

1. Watermarks a file with the receiver's email address
2. Does email blast

## Nice to Have Features:

1. Input file types to be watermarked
    - a. GDoc
    - b. Docx
    - c. PDF
  2. Mail Merge
  3. Mini web app portal
    - a. Upload file to the portal
  4. Placeholder
- 

## CURRENT PLAN OF ACTION

For everyone:

1. Experiment with Watermarking Libraries
